- Bengaluru, Karnataka, India

SKILLS

- Java, OPSS Concepts, Core java 8
- Servlet, JSP, JDBC
- Spring Boot
- Hibernate
- Rest API design & development
- Mysql
- AWS for testing deployment & S3 Services
- Git & GitHub
- IntelliJIdea/ STS/ Eclipse
- Postman, Swagger
- Junit
- Maven
- Spring MVC
- Spring Security
- Oauth
- J2ee
- Microservices

CERTIFICATIONS

- PSA Academy 6-month| Java Developer
- Python Programming-A Practical approach E & ICT Academy, IIT Kanpur
- Web Development From IMSEC

EDUCATION

- BTECH || IMSEC, GHAZIABAD || CSE 2019-2023 || 7.53 CGPA
- INTERMEDIATE || 63.2% || 2018 Sri Siddh I.C. Deoria, UP Board
- HIGHSCHOOL || 8.6 CGPA || 2016 A.Y.T. Sr. Sec. School, CBSE Board

PROFILE SUMMARY

Passionate and skilled Java Developer with practical knowledge in back-end technologies. I currently have 6 month of experience working as Java Backend Developer , I have developed several API'S in my Project using Spring boot and Hibernate well versed with Spring Security.

PROJECT

FULL STACK CRUD PROJECT

- Design and Developed a full stack CRUD(Create, Read, Update, Delete) application to efficiently manage and manipulate the student data .
- Technologies Used: Java, SpringBoot, Angular with Typescript, MySQL
- Development Tools: STS, MySQL-WorkBench, GitHub

Hotel Booking System

- User Authentication: Developed Signin and Signup features with JWT Token implementation and Spring Security, including OAuth login via Gmail and OTP for password updates.
- Property Management: Property owners can add, update, delete, and list properties with image storage in Amazon S3. Users can leave reviews and shortlist properties for future reference.
- Booking and Confirmation: Integrated third-party APIs for SMS, Email, and PDF generation, providing booking confirmations with detailed information sent via SMS/Email.
- Technical Implementation: Utilized Spring Boot for REST API development, implemented pagination, sorting, and handled exceptions with validation. Core Java 8 features like Stream API were used extensively.
- Technologies Used: Java, springBoot, AWS, MySQL
- Development Tools: IntelliJIdea, MySQL-WorkBench, Postman, Twilio trail account ,GitHub

EXPERIENCE

INTERN-JAVA FULL STACK DEVELOPER, PSA ACADEMY, BANGALORE, NOVEMBER-2023-MAY-2024

- Completed an intensive internship at PSA Academy, specializing in back-end development with Spring Boot, RESTful APIs, and database management. Gained exposure to full-stack methodologies, including front-end development with Angular and TypeScript.
